

For Immediate Release:

Aicent Partners with HarborLink to Extend U.S. Wi-Fi Coverage for Global Mobile Operators

Aicent customers get Wi-Fi access at participating Buffalo Wild Wings restaurants, BP fuel & convenience stores and several other major brands across the U.S.

San Jose, Calif. and Dayton, Ohio – January 11, 2011 - Aicent Inc, a leading provider of data network services and solutions for global mobile operators has partnered with HarborLink Network Ltd to enable seamless Wi-Fi access at HarborLink's hotspot locations throughout the United States, including participating Buffalo Wild Wings and Skyline Chili restaurants, BP fuel and convenience stores, and several other major restaurant chains, retail locations, universities, municipal Wi-Fi locations and convention centers across the United States.

"As a leading provider of mobile data solutions and interworking solutions for over 160 mobile operator customers globally, Wi-Fi roaming is a very important component of Aicent's mobile solution set," said Lynn Liu, CEO of Aicent. "Wi-Fi roaming has become especially critical to mobile operators as a data offloading and affordable roaming strategy. With this new partnership with HarborLink, Aicent continues to grow its carrier class Wi-Fi network making it possible for our customers to offer subscribers a widespread Wi-Fi roaming footprint throughout the North and South America, Europe and Asia-Pacific regions"

"HarborLink wants to lead global efforts for 3G/4G offload onto Wi-Fi Networks, and by partnering with Aicent, we seek to drive the value of Wi-Fi roaming for mobile operators as an effective and affordable alternative to 3G/4G roaming," said Robert Brown, HarborLink's Global Vice President of Sales and Marketing. "Aicent has extensive relationships in the mobility space worldwide and we are excited to be working with them to extend our network to their many partners thru their Wi-Fi Roaming eXchange platform."

Aicent mobility partners will be able to access the Wi-Fi network at HarborLink Locations within the next 30 days, which includes participating Buffalo Wild Wings and Skyline Chili restaurants, BP fuel & convenience stores, and several other venues across the U.S. For more information regarding Aicent's products and services, please visit www.aicent.com.

About Aicent

Serving more than 2.5 billion mobile users around the world, Aicent, Inc. is a leading provider of data network services and solutions for global mobile operators. To enable interoperability between Aicent customers and other networks, Aicent operates one of the world's largest GPRS and 3G network eXchanges, connecting to over 160 operators, including nine of the world's ten largest. Through extensive peering arrangements, the Aicent network reaches nearly all GPRS/3G operators around the world. Aicent also operates integrated mobile messaging services, including one of the world's first and largest multimedia messaging eXchanges, and offers other value-added services to help carriers maximize revenue opportunities. Founded in 2000 and headquartered in San Jose, Calif., Aicent has regional offices in the Americas, Asia Pacific and Europe. For more information, visit www.aicent.net.
