

For Immediate Release:

HarborLink Signs Hub Agreement with Quiconnect to Enable Instant Wi-Fi Roaming in the U.S. for Wireless Broadband Alliance Members

With Quiconnect partnership, HarborLink is able to launch multiple roaming partners at once

London (UK) and Dayton, Ohio (USA) –January 13, 2011 - Quiconnect continues to grow its list of 'QuicTrac' hotspots with today's announcement with HarborLink. With more than 35 strategic carrier partner interconnections in place today, Quiconnect will make access to HarborLink locations instantaneously to those partners who opt in thru the QuicTrac hubbing platform.

HarborLink Network serves many top brands in the U.S., including Buffalo Wild Wings and Skyline Chili restaurants, BP fuel & convenience stores, and several other major restaurant chains, retail locations, universities, municipal WiFi locations and convention centers.

Jeff Mabe, Quiconnect's Vice President of Sales and Marketing, says, "We are excited about our partnership with HarborLink and look forward to driving new traffic onto their network. As a proud member and certified WRIX partner for the Wireless Broadband Alliance (WBA), and as a global technology company with extensive experience interconnecting various roaming protocols and backend systems, we aim to shorten the time and effort it takes to bring on new roaming partners to HarborLink."

"Quiconnect brings us tremendous value by allowing us to enable dozens of carrier roaming partners at once thru a single connection to their QuicTrac hubbing platform", said Robert Brown, HarborLink's Global Vice President of Sales & Marketing. "We look forward to announcing many partner interconnections thru them over the next year."

As a result of this partnership, Quiconnect will act as the Hub Partner for all interconnections to the HarborLink Network. Further, Quiconnect partners, enabled on the QuicTrac hubbing platform, will be able to access the Wi-Fi network at HarborLink Locations within the next 30 days, which includes participating Buffalo Wild Wings and Skyline Chili restaurants, BP fuel & convenience stores, and several other venues across the U.S. For more information regarding Quiconnect's products and services, please visit www.quiconnect.com

About Quiconnect:

Quiconnect provide the tools, technology, services and support to ensure consistent roaming services and have a proven track record.
